I'm writing because I want to make sure you know that we want a clean river.

The EPA should come out with a plan that's good for the river and the fish. But you should also make sure that the plan is flexible and isn't so expensive that it drives out the companies that supply the blue-collar jobs our city needs.

Thank you for taking time to read my comments. I wish you luck on finishing a plan that supports our economy and cleans the river.

Sincerely,
